

Dr Gómez de Diego "testimonial and profile"

Andromedical is a company exclusively dedicated to MEN. At Andromedical, we have analysed a primordial matter to men in the past and in the present: the penis. Thousands of men visit doctors with the need to improve the size and function of their penis. For them, to have a larger penis and higher sexual power would increase their self esteem and erase their complexes.

The goal of Andromedical is improving the quality of life for men through a satisfactory sexuality without complexes.

Since nineties, the male health and beauty have experienced an important upsurge, as revealed by articles and services exclusively aimed at men: cosmetics 'pour homme', specialized magazines for men, gyms and body worshipping, beauty clinics for men.

The beauty products market for men advances to meet new demands. Today's men wish to be able to pleasantly enjoy their sexuality. With the aim of meeting these demands, the market has been able to provide methods to improve erection (Viagra) and to enlarge the penis size.

The device is easy to place and remove at any time. Since the product is discreet and comfortable, it can be worn while walking, sitting, standing... It is placed while penis is in flaccid state, and should be worn between 4 and 9 hours a day with short breaks. One should notice an increase of 1/2cm per month.

The product should be worn for a period of 4 to 6 months according to the size the patient wishes to obtain. There has not been described any secondary effects.

Indications: penis enlargement without surgery, penile curvatures treatment without surgery, Peyronie's disease treatment, post-surgical treatments of penile enlargement surgeries and other penile surgeries, to avoid scar retraction.
